

VREDE en LUST

EARLY MIST RIESLING 2023

Premium Range

A highly terroir expressive cultivar, this Riesling is produced in a typical German Trocken style. The fruit for this wine is sourced from the Vrede en Lust Elgin farm, Casey's Ridge. Most Rieslings are consumed when they are young, showing the most aromatic characteristics.

In the vineyard & cellar

Vrede en Lust's Early Mist Riesling is grown in a cool-climate region, allowing slow ripening and the development of delicate aromatics. The vineyard benefits from morning mist, which helps retain acidity and freshness in the grapes, while warm afternoons ensure optimal ripeness. Grapes are hand-harvested early in the morning to preserve their natural acidity and vibrant fruit expression. After gentle pressing, the juice undergoes cold fermentation in stainless steel tanks to enhance the fresh and floral characteristics. A small amount of residual sugar is left to balance the bright acidity, creating a beautifully refreshing style with subtle notes of honey. Through the combination of careful vineyard practices and precise fermentation management, this wine offers an elegantly styled and fragrant wine.

4.7g/l

In the bottle

Intense floral notes of honeysuckle and jasmine, complimented by fresh citrus (lime and lemon zest) and hints of green apple and white peach. Crisp and lively, with bright acidity balancing delicate sweetness. Flavours of lime, pineapple, apricot, and subtle minerality create an elegant and refreshing experience. Long and zesty, with a lingering citrus and floral elegance.
